

BOLTING AND PERMISSION PROCEDURE FOR SPITZKOPPE

- A proper route plan with photographs has to be submitted to the MCSA Namibia committee by the applicant for evaluation.
- Once the MCSA Namibia committee has given preliminary authorization the MCSA will send the requesting party a bolting standard (Available on our website) that will have to be maintained during the bolting process.
- the requesting party agrees with this standard, the Mountain Club committee will inform Spitzkoppe Management of Lodge and Rest Camp prior to the arrival of the climbers.
- Once the route is bolted the requesting party has to submit a detailed route description to the MCSA Namibia section committee.
- The route will then be inspected by members of the MCSA.
